Reference: 11.115

AISI 304 stainless steel satin

COMPONENTS & MATERIALS

- Overall stainless steel food grade 304 satin finish.
- High speed self-developed brushless motor.
- 3 IR sensors in both sides for automatic hands detection.
- With plasma. Disinfect the hand dryer and the surrounding areas simultaneously. HEPA filter which avoids the entry of the tinyparticles.
- Internal tank to collect the water and avoid a mess.
- Designed for high traffic bathroom and continuous use.
- Easy maintenance.
- Dimension: 660 high x 290 wide x 180 deep mm.
- Warranty: 3 years.

TECHNICAL SPECIFICATIONS

· Material	AISI 304 stainless steel
· Cover thickness	1.0 mm thick
· Voltage/Frequency	AC220V, 50/60Hz
· r.p.m.	19000-20000
· Total power	1800W
· Motor power	800W
· Heating element power	1000W
· Air velocity	100m/s
· Air temperature	20-40°C
· Noice level	<68dB
· Protection level	IP34
· Drying time	5-10s

FEATURES

- Overall stainless steel food grade 304, including inner structures & install screws.
- No openings or cracks on the surface, easy to clean dirt, no chance for bacteria survive.
- No fear of fire, burning cigarette butts. Scratch can be repaired.
- Sealing material CR4305.

- Adopting a complete closed structure to protect brushless motor and stainless steel rotor, last up to 10 years.

- Use SPIC super-energy ion generator to release trillions of positive and negative ions.
- Degradation of organic matter. Eliminate smoke, odor...Static electrode absorbs dust, PM2.5.
- Without emission of ultraviolet rays and ozone. Produce negative ions and improve air quality.

- Washable with water. Disinfect with disinfectant, ultraviolet rays and hot water.
- Use vacuum cleaner and air blower (colder) to clean HEPA filter.
- Outer filter can be washed for repeated use.
- Warranty: 3 years.
